COMMUNITY NEWS

Wildlife Awareness

We're asking for everyone's support in reducing wildlife attractants, especially when it comes to household trash. Bears and other animals are drawn to easy food sources, and our habits can unintentionally encourage them to return.

To help minimize wildlife interactions:

- Please place your trash at the end of the road only the night before pickup.
- When it's not a pickup day, store bins inside your garage or another secure area.

These small steps make a big difference in limiting access to food and discouraging wildlife from investigating trash bins.

Community Reminders

If you received PCS orders, reach out to the office and ensure that you are on proper notice to vacate.

Help keep our community clean and tidy by removing items from front yards and patios.

To our dog owners, please ensure that your animal is on a leash in the community and that you clean up after them. Dog leads attached to homes, fences, trees, patios, etc. are not permitted.

The Navy TSS survey is here! **March 2, 2026 – May 1, 2026.**

Please check your email for the official survey link. This is your opportunity to share detailed feedback about your living experience and help us continue improving our community. **Your voice matters, and we appreciate your time and participation!**
